Executive Summary

Motivated Artificial Intelligence and Full Stack (MERN) developer seeking the role of **MERN Stack Intern** at Klenty India Pvt Ltd. Experienced in building scalable, real-world web applications with React, Node.js, MongoDB, and API integrations. Proven ability to independently develop and deploy full-stack projects. Strong in backend logic, system design, and delivering production-ready solutions.

Skills

Languages: Python, Java, JavaScript, C++, C

Frontend: React.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, FastAPI

Databases: MongoDB, MySQL

Core Concepts: MERN Stack, REST APIs, Full Stack Development, System Design

AI Tools

ChatGPT, Gemini API, Claude AI, Prompt Engineering, AI API Integration, NLP, CursorAI, Antigravity, Codex.

Tools & Platforms

Git, GitHub, VS Code, Postman, Docker, Vercel, Netlify

Education

B.Tech – Artificial Intelligence and Machine Learning

2023 – 2027

SNS College of Technology, Coimbatore

CGPA: 8.79 / 10

Projects

Client-Based Live Projects (Fully Developed by Me)

- Arul Associates Website
- Gladz Music Platform
- Club Italia Website
- Deployed Project 1
- Deployed Project 2
- Designed, developed, and deployed all projects independently (frontend + backend).

FitPro – AI Fitness Planner

Role: Full Stack Developer

- Built AI-based planner for diet, workout, and meditation.
- Developed backend APIs using FastAPI and MongoDB.
- Implemented real-time plan regeneration and optimization.

NLP Chatbot – News Assistant

Role: Full Stack AI Developer

- Built chatbot using NLP, Python, and Flutter.

- Delivered political news from past to current data.

AI Medic – Emergency Platform

Role: Full Stack Developer

- Developed QR-based emergency medical system.
- Enabled alert system for emergency contacts.

Foodwiz – AI Recipe Platform

Role: Full Stack Developer

- Built AI-based recipe generator and nutrition system.

RFID Authentication System

Role: Embedded Developer

- Developed RFID-based secure authentication system.

Internships

Full Stack Developer – IHUB

6 Months

- Developed full-stack applications and handled debugging.

AI/ML Developer – CODTECH

2 Months

- Built AI-based applications and tools.

Software Developer – Encapsulation IT

1 Month

- Developed backend systems using Java.

Hackathons & Achievements

- Winner – JIT Hackathon
- Winner – Info Institute Hackathon
- Winner – Jeppiaar College Hackathon
- Top 10 – Central India Hackathon
- Mentor – LeetCode Training Program

Certifications

Prompt Engineering – 2025
Claude AI – 2026
MERN Stack Development – 2026
Design Thinking – IBM
Python – PrepInsta

Extra-Curricular Activities

Coding Club Member, Sports (Cricket, Volleyball, Badminton)

Languages

English, Tamil, Kannada, Japanese
